## Note on Forward-Looking Statements

This document contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Readers of this document should understand that these statements are not guarantees of performance or results. Many factors could affect our actual financial results and cause them to vary materially from the expectations contained in the forward-looking statements, including those set forth in this document. These risks, uncertainties, and factors include, among other things: risks associated with general economic and industry conditions, including inflation, rising interest rates, decreased availability of capital, volatility in financial markets, declining consumer spending rates, recessions, decreased energy availability, increased energy costs (including fuel surcharges), supply chain challenges, labor shortages, and geopolitical conflicts (including the ongoing conflict between Russia and Ukraine); negative impacts caused by public health crises; risks related to our ability to deleverage on currently anticipated timelines, and to continue to access capital on acceptable terms or at all; risks related to the Company's competitive environment, cost structure, and related market conditions; risks related to our ability to execute operating and value creation plans and achieve returns on our investments and targeted operating efficiencies from cost-saving initiatives, and to benefit from trade optimization programs; risks related to the availability and prices of commodities and other supply chain resources, including raw materials, packaging, energy, and transportation, including any negative effects caused by changes in levels of inflation and interest rates, weather conditions, health pandemics or outbreaks of disease, actual or threatened hostilities or war, or other geopolitical uncertainty; risks related to the effectiveness of our hedging activities and ability to respond to volatility in commodities; disruptions or inefficiencies in our supply chain and/or operations; risks related to the ultimate impact of, including reputational harm caused by, any product recalls and product liability or labeling litigation, including litigation related to lead-based paint and pigment and cooking spray; risks related to our ability to respond to changing consumer preferences and the success of our innovation and marketing investments; risks associated with actions by our customers, including changes in distribution and purchasing terms; risks related to the seasonality of our business; risks associated with our co-manufacturing arrangements and other third-party service provider dependencies; risks associated with actions of governments and regulatory bodies that affect our businesses, including the ultimate impact of new or revised regulations or interpretations including to address climate change or implement changes to taxes and tariffs; risks related to the Company's ability to execute on its strategies or achieve expectations related to environmental, social, and governance matters, including as a result of evolving legal, regulatory, and other standards, processes, and assumptions, the pace of scientific and technological developments, increased costs, the availability of requisite financing, and changes in carbon pricing or carbon taxes; risks related to a material failure in or breach of our or our vendors' information technology systems and other cybersecurity incidents; risks related to our ability to identify attract, hire, train, retain and develop qualified personnel; risk of increased pension, labor or people-related expenses; risks and uncertainties associated with intangible assets, including any future goodwill or intangible assets impairment charges; risk relating to our ability to protect our intellectual property rights; risks relating to acquisition, divestiture, joint venture or investment activities; the amount and timing of future dividends, which remain subject to Board approval and depend on market and other conditions; and other risks described in our reports filed from time to time with the Securities and Exchange Commission. We caution readers not to place undue reliance on any forward-looking statements included in this document, which speak only as of the date of this document. We undertake no responsibility to update these statements, except as required by law.

## Notes on Non-GAAP Financial Measures

- bRANDS.

This document includes certain non-GAAP financial measures. Management considers GAAP financial measures as well as such non-GAAP financial information in its evaluation of the company's financial statements and believes these non-GAAP financial measures provide useful supplemental information to assess the company's operating performance and financial position. These measures should be viewed in addition to, and not in lieu of, the company's diluted earnings per share, operating performance and financial measures as calculated in accordance with GAAP.

Organic net sales excludes, from reported net sales, the impacts of foreign exchange, divested businesses and acquisitions, as well as the impact of any 53rd week. All references to changes in volume and price/mix throughout this release are on an organic net sales basis.

References to adjusted items throughout this document refer to measures computed in accordance with GAAP less the impact of items impacting comparability. Items impacting comparability are income or expenses (and related tax impacts) that management believes have had, or are likely to have, a significant impact on the earnings of the applicable business segment or on the total corporation for the period in which the item is recognized and are not indicative of the company's core operating results. These items thus affect the comparability of underlying results from period to period.

References to earnings before interest, taxes, depreciation, and amortization (EBITDA) refer to net income attributable to Conagra Brands before the impacts of discontinued operations, income tax expense (benefit), interest expense, depreciation, and amortization. References to adjusted EBITDA refer to EBITDA before the impacts of items impacting comparability.

Hedge gains and losses are generally aggregated, and net amounts are reclassified from unallocated corporate expense to the operating segments when the underlying commodity or foreign currency being hedged is expensed in segment cost of goods sold. The net change in the derivative gains (losses) included in unallocated corporate expense during the period is reflected as a comparability item, Corporate hedging derivate gains (losses).

## Forward-Looking Non-GAAP Financial Measures

Our fiscal 2024 guidance includes certain non-GAAP financial measures (organic net sales growth, adjusted operating margin, adjusted EPS, net leverage ratio, free cash flow, and adjusted effective tax rate) that are presented on a forward-looking basis. Historically, the company has calculated these non-GAAP financial measures excluding the impact of certain items such as, but not limited to, foreign exchange, acquisitions, divestitures, restructuring expenses, the extinguishment of debt, hedging gains and losses, impairment charges, legacy legal contingencies, and unusual tax items. Reconciliations of these forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures are not provided because the company is unable to provide such reconciliations without unreasonable effort, due to the uncertainty and inherent difficulty of predicting the timing and the financial impact of such items. For the same reasons, the company is unable to address the probable significance of the unavailable information, which could be material to future results.

3. In Q1 FY23, we reported a GAAP net loss. In periods when we recognize a net loss, we exclude the impact of outstanding stock awards from the diluted loss per share calculation, as their inclusion would have an anti-dilutive effect. The adjusted diluted earnings per share calculation includes the impact of outstanding stock awards.
